

FY2013 Lecture Meeting "JAMSTEC 2014" - The Future of the Earth to read from the Ocean -

JAMSTEC, the Japan Agency for Marine –Earth Science and Technology, will be holding its annual lecture meeting "JAMSTEC2014," as described below.

The meeting is annually held to introduce JAMSTEC's research activities and achievements to a public audience.

JAMSTEC2014, titled "The Future of the Earth to read from the Ocean" will offer presentations in two sessions; In Part 1, we report the research results of FY2013 and the summary of the middle plan of a second period.

In Part 2, we perform a panel discussion about outreach activity of JAMSTEC by the panelist of the various places of the mass media. In addition, in a neighboring floor, we carry out the poster session about research activities of this year.
